Art Unit: 3712

The following is an examiner's statement of reasons for allowance: The prior art does not disclose an arrowhead including a fixture having a chisel point, and a circular recess behind the chisel point for the capture of the forward portion of blades; a first shaft extending from the recess; an annular beveled ring on the shaft, and having slots to accommodate the base edges of the blades; a second shaft portion extending rearward from the beveled ring, having slots which also accommodate the base edges of the blades; a threaded shaft extending rearward from the slotted shaft; and a mounting ferrule on the fixture to capture rearward protrusions of the blades.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
